

IT WAS A PROFITABLE MEETING.

State Agricultural Commissioner Lucas Moore Says the Farmers' Institute at Irvington Last Tuesday and Wednesday was the Most Successful that Has Yet Been Held.

A SERIES OF INSTRUCTIVE TALKS ON LIVE RURAL TOPICS.

PORK HELPS TO LIFT MORTGAGES.

Horticulturalist Tells How Much Comfort An Acre of Ground Will Produce.

PERMANENT ORGANIZATION.

Meade and Breckenridge Agricultural and Improvement Society.

THE GOOD ROADS PROBLEM SOLVED.

Girls Advised to Learn How to Make First Class Butter.

Irvington was in her glory Tuesday and Wednesday. She put on her best smile and extended her heartiest welcome to the attendants of the soil who had gathered there from all parts of this section to attend the Farmers' Institute.

The citizens had made every preparation to entertain all who might come and the three or four hundred progressive farmers who were present at the daily sessions of the institute were handsomely taken care of.

The meeting was held at the Baptist church. It convened Tuesday afternoon and was opened with prayer by Hon. Thomas H. Dittie. Following the invocation was a song by a special chorus.

Hon. Charles Blanford was elected chairman. In a neat speech he accepted the honor and then in well chosen words welcomed the visitors to the city.

He said that the purpose of the institute was to awaken the farmer to the possibilities of the agricultural industry. "It is due to the farmer," said he, "that the country is now in its present splendid financial condition. He goes along in the even tenor of his way, producing those crops that bring to the nation its greatest wealth and prosperity. Better farming and methods that produce larger crops with an expenditure of the same amount of energy add to the wealth producing power of the nation."

After Mr. Blanford's address a motion was made and seconded that J. D. Babbage be made secretary of the convention. The motion was carried and he was installed as secretary of the meeting.

The program was then taken up in its regular order.

SPLENDID ADDRESS

On the Breeding, Care and Management of Swine.

The first address was made by E. W. Robertson, of Missouri, who spoke on "The Breeding, Care and Management of Swine."

In substance he said: The raising of swine is of first importance. It is the most valuable product of the farm. All others are of secondary importance. There is nothing like the mortgage of the farm as easily and quickly as swine and for this reason great attention should be paid to all the details of pork production.

The farmer should look well to the foundation of his herd. The stock should be the very best. In selecting the brood sow consideration should be given to the individual make-up, whether it should be Berkshire, Poland China or Chester White. Time was when the large, fat hog, brought the most money but changing conditions have done away with this.

Crowns are not desirable. It is better to handle thoroughbred stock. Don't hesitate at the expenditure of a dollar or two extra to get a good male. In handling hogs for profit the breakfast bacon wigs are the most desirable. Those weighing from 150 to 175 pounds bring the highest prices. The first 175 pounds added to the weight of a hog are the most profitable for the owner to make.

Diseases among swine destroy profits. The best methods of keeping hogs free from disease is the "ounce of prevention."

It superior, from an economic standpoint to the other plants of like character. Its fertilizing qualities are splendid and Mr. Oglesby advised that the bean be given preference over clover where farmers take steps to feed their soil by the planting of nitrogenous plants. The soja bean, he said, contained more protein than clover.

THE SOLO.

Dr. Foote Speaks on Enslavement as Stock Food.

Dr. P. W. Foote, who is the most successful dairy farmer in this portion of the Ohio valley, gave a very instructive talk on silos.

He said that ensilage was the cheapest and best stock feed. It preserved all the nutriment of the corn. It could also be fed so that the droppings could be saved for fertilizing, a very little consideration. It costs but little to erect a silo and the expense of putting up ensilage is comparatively small.

Miss Herndon sang "Old Kentucky Home" in a most charming manner and this closed the program for the afternoon.

The morning session, which convened at 9 o'clock, was fully as well attended as the session of the day before. Farmers were present from all the surrounding country and they seemed deeply interested in the discussions.

The chorus opened the meeting by singing "America." The audience was moved by the patriotic song and soon all were singing "My Country 'Tis of Thee."

GEOLOGY.

The Relation of Rock Formation to the Soil.

Prof. A. M. Miller, the State Geologist, then gave a talk on the soil and rock formation. He advised the farmer to study his soil and explained the relation of geology to farming.

With the aid of a map, Professor Miller pointed out the different geological strata of this and Meade counties, and also explained the nature of the soil. He complimented those who attended the institute, and said it was the most intelligent gathering of the class that he had ever seen. He had heard more of scientific methods of farming at this institute than at any other.

Miss Ellen Manford rendered a very pretty solo, which was enthusiastically applauded.

THE ORCHARD.

Prof. Johnson Advises Patronizing Home Nurseries.

Prof. F. M. Johnson, a famous horticulturist, and the owner of "Fern Creek" farm, in Jefferson county, gave one of the most valuable talks of the meeting.

He spoke of the small fruit producing capacity of an acre of land, and it surprised his hearers. He advocated the planting of twenty-five apple trees to the acre, trees to be set forty feet apart.

Between each tree a peach tree could be planted, and the balance of the tract could be set out in small fruits, such as strawberries, blackberries, or raspberries. This would prevent a waste of land, and would make a profitable arrangement.

Prof. Johnson advised farmers who intended setting out orchards to patronize their home nurseries. It is not advisable to send to New York or Missouri for trees to be planted, he said. As a rule such trees are not adapted to the climatic or soil conditions of this section.

If you want to buy trees that will give the best results of your stock from your own home, if the nurseryman is at all honest, he will give you just what you want. Patronizing home industries is what builds up communities. If you want to be prosperous you must help your neighbor to be prosperous. Your home nurseryman, by your assistance, can build up a nice business, and is enabled to extend his operations that he can satisfy any demand made of him.

Mr. Johnson advocated a more extensive use of fruits. People should eat more fruit and less meat. He said that the possibilities of the small fruit industry in this section were great, and that a few years would witness a marvelous change which would be of great benefit to the farmer.

Mr. Johnson complimented Hon. Lucas Moore, Commissioner of Agriculture. He said that Mr. Moore had done more to promote the general welfare of the farming interests than any previous incumbent of the office.

Mr. Johnson's remarks gave rise to a vigorous discussion, but did not prevent the attendance at the institute to be the best mass of planting and raising small

fruits. He was asked a number of questions which he cheerfully answered. Miss Nora Henderson sang "The Star Spangled Banner," the choir assisting in the chorus.

THE BANQUET.

Irvington Ladies Give Farmers a Square Meal.

One of the pleasant features of the meeting was the elegant luncheon that was spread for the visitors at Bandy's store Wednesday noon.

The ladies of Irvington are noted throughout this end of the state for the excellence of their cooking and they fairly eclipsed themselves at this spread.

The collation was fine and every one of the guests went to the banquet with their appetites sharpened by anticipation.

Their palates were tickled with the richest of viands and delicacies. After the luncheon they gathered at the meeting place thoroughly satisfied with themselves and the world.

They complimented the Irvington people highly for their hospitality and were warm in their expressions of admiration of the ladies of that hustling little town.

A PERMANENT THING.

Agricultural and Improvement Society Organized.

The noon session of the institute opened with a fine attendance. Chairman Blanford called the house to order and proposed that the institute be made a permanent thing.

His proposition met with favor and acting upon it, Ed Oglesby nominated Dr. P. W. Foote as the president of the organization which should be known as the Agricultural and Improvement Society.

Dr. Foote was elected president by a unanimous vote. Thomas H. Dittie, of Meade county, was placed in nomination as secretary of the association and was elected without a dissenting vote.

John Louis Henry, of Breckenridge county, was elected treasurer. The permanent organization being effected, the regular program was taken up.

GOOD ROADS.

Suggested That County Employ an Engineer.

J. P. Brooks, a high-way expert talked on "Good Roads." He said that there was not enough attention paid to construction or drainage. Good results in road building or rearing cannot be obtained if the highways are not properly drained. There is only one way to build good roads and that is through good engineering.

Major Thomas H. Hayes, of Hardin county, also spoke on the same lines. He said that the system of giving magistrates charge of road building and repairing roads in each county.

A general discussion of the subject followed.

DAIRY FARMING.

A Profitable Occupation For The Women.

J. H. Monrad, Dairy Expert of the National Department of Agriculture spoke on dairy farming. He said he was born on a dairy farm in Denmark, one of the greatest dairy farming countries on earth.

He said that dairy farming was very profitable where it was intelligently carried out. It took devotion to business, constant attention and hard work to conduct a dairy farm profitably.

The best dairy animal is the one that gives the most milk. The milk should contain a large proportion of butter fat. The best strains of milk cows for the dairy is the Jersey.

Mr. Monrad urged the young women to study dairying. He said that good butter always finds a ready sale, and dairymen in a better business than school teaching.

In answer to a question as to what

were the characteristics of a good milk cow he said that an animal should be narrow in the flank, have a broad belt and wide hips.

ADJOURNMENT.

Officers and Others Receive Vote of Thanks.

Mrs. W. W. Stephens, of Salem, Indiana, gave a practical and interesting talk on "Farm Poultry." She advocated raising plenty of poultry, and said that they should have all the range they needed.

She said that it was impossible to raise fowl on the farm, as they were bound to cross.

Commissioner Lucas Moore made the closing address. He said that this was the best and most successful farmers' institute that had yet been held. It was a success in every way.

The thanks of the institute were extended the members of the Baptist church for the use of their building, to Mrs. Charles Blanford and J. D. Babbage for their efficient services as officers of the meeting, to the members of the choir for the excellent music, and to R. B. Bandy for the use of his building as a dining hall.

A resolution of thanks was also offered by Mr. W. J. Piggett to Commissioner Lucas and his able corps of lecturers for their assistance in making the meeting both pleasant and profitable.

Commissioner Moore complimented the Breckenridge News very highly for the assistance it had given to the institute for the interest it has taken in the farmer's interests.

HUSTLING WOMAN

Helps to Manage a Four Hundred Acre Farm.

On Which There is a Pear Orchard With 12,000 Trees.

A FINE TYPE OF FARMER'S HELPER.

One of the most interesting figures at the Farmers' Institute at Irvington, last week, was Mrs. W. W. Stephens, of Salem, Ind.

She is a woman of strong intellect, pleasing personality and almost unbounded energy.

Mrs. Stephens was born in Kentucky and spent a large part of her life in the south. She married her husband in Washington county, Indiana.

She immediately took an interest in all that pertained to agriculture and it is largely through her up-to-date ideas and common-sense methods that the estate on which she lives has become one of the most beautiful and prosperous farms in Indiana.

The farm consists of 400 acres of rich soil and has on it one of the largest pear orchards in the world. The latter contains 12,000 trees of the Keifer variety, which Mrs. Stephens says is an ideal market and shipping pear.

Mr. and Mrs. Stephens also make a specialty of raising Morgan horses and some of the animals that have been bred on this farm have gained wide spread fame.

Mrs. Stephens said that she loves Farmers' Institute work. She considers it a glorious mission to work among farmers and has devoted herself to it for years.

She believes in arousing the interest of women in this branch of industry and says that the co-operation of the farmer's wife is an advantage that must not be overlooked and at the farmers expense.

The paper which she read and which is reproduced in this issue of the News is a splendid one and shows that she is possessed of a strong, analytic mind. She utters some wholesome truths and they should be read and digested by family of farmers that see this paper.

Mrs. Stephens was highly complimented by those that attended the institute and all expressed the hope that they would see and hear her again in the near future.

Attended the Institute.

Those from a distance who attended the Farmers' Institute at Irvington last week were: Mrs. Dix and Harry English, Union Star; Charles Tait and F. J. Dutcher, Holt; A. B. Skillman, W. H. Bowmer, Wm. Ashly and Ed Oglesby, Cloverport; A. M. Hardin, Leblond, Major Thomas Hayes, Jefferson county and G. W. Winchell, of Tullahoma.

THE UNAPPRECIATED ADVANTAGES OF COUNTRY LIFE.

FARMERS ARE NOT HOWLERS.

They Ought to Combine to Protect Their Interests.

CHILDREN FREE-BORN AMERICANS

They Are Not Troubled By Beggars or Peddlers.

NO MYSTERIES IN THE COUNTRY.

Sweet Country Girls Stand Good Show For Matrimony.

The following paper was read by Mrs. W. W. Stephens, of Salem, Indiana: The advantages that surround life on a farm are manifold and entirely too many of them are unappreciated. This fact is brought forcibly to our minds when we see with what indifference, if not actual contempt, the efforts made by the soil and their families look upon their surroundings. I know that farmers are accused of being "calamity howlers" and when we view their efforts made by the soil and their families look upon their surroundings. I know that farmers are accused of being "calamity howlers" and when we view their efforts made by the soil and their families look upon their surroundings. I know that farmers are accused of being "calamity howlers" and when we view their efforts made by the soil and their families look upon their surroundings.

The farmers' institute is an unappreciated advantage of farm life to many in our state. That we have this opportunity of mingling with our friends and neighbors, exchanging thoughts and experiences with those whose interests are identical with our own, of cultivating our social nature, is, or should be, regarded as a privilege by all farmers' families, especially should the ladies of the farm enjoy it. If arrangements could be made so that we could in most families be left entirely in the rear and the advantages of a good live farmers club will not be unappreciated by any one who belongs to one.

ALL KINDS OF HAPPINESS.

Custer is To Have a Double Wedding.

Birthday and Wedding Anniversary Galletries.

Cupid has been shooting his arrows very promiscuously in the Custer neighborhood, and many of the darts have found lodgment in tender hearts. The latest victims of his marksmanship who have determined to enter the matrimonial state are George Dowell and Miss Iva Carlton, and C. R. Carlton and Miss Ethel Sprague. It will be a double wedding and Rev. C. H. Buchanan will officiate. The event

will take place January 18th, at two o'clock p. m. at Custer. The contracting parties are all representatives of the best families in that section, and are possessed of all the attributes of refinement and culture. A host of friends are delighted at their happiness.

The date of the wedding, peculiarly enough, is the fiftieth birthday and the anniversary of Mr. H. T. Carlton, the father of two of the contracting parties. The day will be appropriately observed and it will be filled with more joy and happiness than one can shake a stick at. The News wishes all of those interested every happiness that is vouchsafed to mortals here below.

Going to Cuba

F. T. Hoyer has received a letter from his son, Roy, who is at Columbus, Ga., with the Third Kentucky. Roy writes that he is enjoying splendid health, and that his regiment is preparing to go to Cuba.

FARMERS!

WE HAVE

Northern White Seed Oats,
Northern Black Seed Oats,
Timothy, Red Top
and Clover.

All No. 1 Clean Seed at the

LOWEST PRICES.

WM. VEST & SONS.

Straight Talk to Farmers!

Losses on the farm are due to the little leaks that drain the purse. One reason you do not get the highest market price for your wheat is because you do not grade it at home. One reason why your produce does not bring the best prices is because you sow foul seed. Grade your wheat and you get prices that will more than pay you for the labor you put in. Keep the offer at home and feed it to the chickens. Sow clean seed and all your products will class as A No. 1, and will bring top market prices.

A FRIEND IN NEED, IS A FRIEND INDEED!

Your friend and assistant in grading your wheat and cleaning your seed is

HEYSER'S FAN MILL.

It is equipped with five screens and absolutely cleans every class of farm seed. It is so simple that the rawest farm hand can operate it. It is so cheap that there is no excuse for you to be without it. It is built so strong that it will last for years. It is so necessary that you should not be without it another day.

HEYSER'S FAN MILL

COSTS \$12.00 CASH.

Notes taken for 60 days without interest, but draw interest after maturity. For further information call on or address

F. T. HEYSER,

Agents Wanted.

SCHOOL REPORTS.

Educational Notes From Holt and West View.

How the Scholars Stand in Their Different Studies.

Holt, Ky., Jan. 9, 1899.—The following named pupils are those who have merited 85 per cent. and over, graded on general class work and deportment for the fourth ending Dec. 23, 1898:

Harry Board 97.9; Frida Reisel, 97; Gus Reisel, 96.7; Lennie Marritt, 95.6; Vera Timms, 95.5; Nora Board, 95.1; Henry Coons, 95; Alice Board, 94.8; Carl Timms, 94.8; Sallie Williams, 94.1; Earnest Pierce, 93; Minor Pierce, 93; Edie Boulinghouse, 92; Marlie Coons, 92; Green Payne, 90; Sallie Pierce, 89.7. The attendance is as good as could be expected considering the weather and parents are requested to continue to keep their children as regular in attendance as possible and aid us in the promotion of education. Very respectfully,
FOREST HAYES, Teacher.

The following is the report of the fourth month term of the West View school. Following are best grades: Annie West, 100; Jennie Bowman, 100; Annie Mattingly, 100; Richard Mattingly, 100; Mary Mattingly, 100; Jennie Mattingly, 100; Coleman West, 10; Mable Brown, 99.9; Wilbur Brown, 99.3; Frank Brown, 99; A. Bowman, 98.1; Annie Hill, 98.6; Con Mattingly, 98.5; Emma Hill, 97.5; Coleman Mattingly, 97.4; Lawrence Hill, 95; Leo Haffey, 96.8; Joe West, 96.8; Bernard Mattingly, 96.8. Several who should be first were absent a part of the time that is why they are not first.

SCHOOL NOTES.

School closes in three weeks. Come out on the last day.

Master Leo Haffey has had the grip and has been out of school. The attendance last month was not so good as formerly on account of bad weather.

Misses Hattie West and Mary Mattingly are thinking of entering school at Glendene soon.

We visited Prof. Pile at Glendene Saturday. He is certainly doing a noble work down there.

Broke The Record.

Lieutenant Johnson, of the Third Cavalry, who opened up a rebellion at the Mitchell hotel, broke all records in the recruiting office for December. He succeeded in enlisting 150 men. Of this number sixteen were from the Cloverport station, and they represented some of the best families in this section.

Rapid Rise.

The river has come up very rapidly in the last twenty-four hours. Today it was rising at the rate of one foot. It is not thought that it will reach the danger-line as the cold weather up at the headwaters will prevent a rapid thaw of snow in the mountains.

ADDITIONAL LOCAL

John Vest was at Louisville, Monday, on business.

Fred Freine, of McDaniels, was at Henderson last week.

Dr. J. L. Milner, of Pateville, was in the city yesterday.

W. L. Brown, of Hancock county, was in the city yesterday.

Caplan Walker, of Troy, Ind., was in the city yesterday on business.

Office in Newsum building, front room outside stairway.—Dr. B. T. Rafferty.

Col. Lyle Green, of Falls of Roanoke, went to Louisville, Monday to attend court.

Manager H. V. Harris, of the Breckinridge Cannel Coal Company, is laid up with the grip.

Will Beard, of Fordville, is making preparations to move to Irvington where he will open up a butcher's shop.

Joe Brand has sold his lively stable to Mr. Marshall, at Irvington, and has rented the Beauchamp hotel, which he will conduct.

The Rev. M. M. Benton will hold services at the Methodist church Thursday evening at 11 a. m. and 7 p. m. All are welcome.

Mrs. F. P. Stumm and child, of Sacramento, Ky., who has been visiting her father, Richard May, of Hardinsburg, returned home yesterday.

Select orders, fresh from Booth's at Baltimore, make the best steaks and fries. Served in all styles, with celery, fresh crackers and Heinz's pickles, at Sipple's.

Essie Morrison, one of the most progressive colored farmers of the county, was in the city yesterday delivering his tobacco to the American Tobacco Company.

Mr. George M. Richards, of the Eastern neighborhood, was in town yesterday. He was delivering his crop of tobacco to A. R. and H. S. Jarvis. He had eight thousand pounds and obtained \$5.80 and \$1.

The name "Heinz" on a jar of pickles, relishes, condiments or food preparations is a guarantee of purity, excellence of flavor and cleanliness. Sipple is headquarters for Heinz pickles and canned goods.

Long Neelyman Trip.

Lieut. B. F. Hardaway, who was married at Columbus, Ohio, Jan. 4th, brought his bride to see his parents. They arrived Thursday noon on the 17th. Lieut. Hardaway and wife will start to Manila. He says this is his bride's first trip. Everybody in this country is proud of this young soldier and wish him much success and happiness.

The latter have arranged to commutate with the crowned heads of Europe and have Mr. Babbage placed in charge

MID-WINTER CLEARANCE SALES!

Our sales during December broke the record. We desire to make our January sales equal if not surpass those of December. To do this we are going to have a Clearance Sale of all Winter Goods.

SHOES FROM

50c. to \$3.00.

HATS FROM

40c. to \$2.50.

CLOTHING FROM

\$4.00 to \$10.00 a Suit.

We have made an order for another supply of our \$15.00 Sewing Machines. You should see them before purchasing.

ON FEBRUARY 1st, 1899,

We will cease to give tables to our customers, but will offer some

other valuable piece of furniture, which will be announced through this paper.

Call and Examine Our

5 and 10 Cent Table.

You will find some valuable and useful articles for a small price.

SHELMAN & CO., Irvington, Ky.

A SOULESS CORPORATION.

The Park Railroad runs from Boyleville to Playville, via Robert Pierce's back yard.

It is a fully equipped railroad. It has a set of officers and a small army of employees.

The track is standard gauge, and the locomotive is made of dry goods and a stove-pipe for a smoke stack. It is mounted on wheels, and answers the purpose for which it is intended very nicely.

The officers of the road are as follows: Allen Pierce, general manager; Edward Harris, superintendent of rolling stock; David W. Murray, claim agent and attorney.

The employees are Vivian Pierce, engineer; Wallace Pierce, section boss; Robert Pierce and Russell Harris are section hands and Burne Severs, auditor and motive power clerk.

When the engine makes a trip over the road the section hands are dry goods and they furnish the steam and sand. They push with a will. When traffic is slack the railroad company engages in mining and the section hands are put in the pit.

The road, like all others, has its troubles. The people who live along the line purposely drive their live stock to the right-of-way to have them killed so as to collect big damages from the corporation.

Recently it went into the hands of a receiver owing to the fact that the engineer had carelessly run over three chickens and two turkeys in one day.

Mrs. Pierce, whose chickens were killed, tied up the road until enough money was raised by a series of magic lantern shows to reimburse her for her losses.

The road is death on chickens and were it not for the sharpness of its attorney who is also chicken cornerer, it would never have a silver lining to the dark cloud of financial trouble that hangs over it.

Attorney Murray compromises all cases by promising to have the engineer discharged which is usually done.

The general offices of the Park railroad are up in the top story of the Pierce home. Some times when labor troubles take place and the section hands go on strike for more candy there is a rough house and the property of the road is damaged but the corporation stands in with the military authorities and the Murray Guards, a reserve of the Fourth Regiment, Kentucky Volunteers, commanded by "Col. Dads" Murray is called out and they strike terror to the hearts of the walking delegates and disaffected section hands.

The section hands are complaining about military and impertinent. They threaten to hold an election and vote to make the railroad the public property of Boyleville and Playville.

The officers, however are blasted bondholders. They have over fifty cents in the treasury and they swear they will keep the railroad as private property, if they have to bribe every voter in Boyleville and Playville.

The company has already issued two annual passes over the line. They are made out to Ed Goodnight and J. C. Babbage. The latter gentleman is thinking of returning his pass, as he looks upon the favor as an attempt to corrupt the press.

J. C. Babbage is socialist in his tendencies and sympathizes with the section hands rather than with the officers.

The latter have arranged to commutate with the crowned heads of Europe and have Mr. Babbage placed in charge

as an anarchist if he takes so drastic a step.

Verify the Park railroad is a soulless corporation.

It is estimated that the officers of the road got their monopolistic tendencies from Mayor Barry, who is a coal baron and runs the loyalty of Miss Hall.

Brilliant Affair.

Miss Elizabeth Hall, of Webster, gave one of the prettiest and most enjoyable entertainments of the season at her pretty home, Walnut Lawn, last Thursday night in honor of her handsome guest, Miss Ussell, of Bardonia. The house was attractively decorated in cedar, mistletoe and holly with red candles to brighten the green. Music and games were indulged in and a pleasant feature of the evening was the serving of a dainty lunch at tea tables at 11 o'clock, added to the delight of those present who shared in the genial and courteous hospitality of Miss Hall.

Big Receipts.

Thousands of pounds of tobacco are coming into the city daily, and the capacity of the local handlers is taxed to the utmost to take care of the receipts. Team after team came in yesterday and town was so crowded with planters that it was difficult for them to find accommodations at the hotels and boarding houses.

Starting Early.

J. M. Mullen, one of the best-peppered and most energetic farmers of the Mattingly neighborhood, was in the city yesterday. He has already planted forty acres in tobacco this year.

FINE SHOWING.

Breckinridge Banks' Depositors Have Money to Burn.

The financial statements issued by Breckinridge county's three banks show that they are in splendid condition. The Bank of Hardinsburg has \$14,175.25 on deposit; the Breckinridge Bank, \$175,236.20, while the Shelman bank, at Irvington, which has only been in business a few weeks has \$1,011.63. The total amount of deposits is \$203,372.02, a splendid record for grand old Breckinridge.

Golden Opportunity.

I will sell my hotel and restaurant, a substantial building containing 19 rooms, with veranda on the front and side, with seven lots. The business pays nicely as it is situated at a railway junction and is the only lunch stand on the route. My reason for selling is because I want to go on a farm at once. I will sell one-half interest, or the whole. For full information, regarding the business, call and see me.

THOUGH THE WORLD BLAME THEE.

(Dedicated to a Friend.)

THOUGH the world blame thee, thou art not to blame,
Though the world praise thee, heaven not at all,
In thine own heart is the reward or shame,
In thine own heart the victory or the fall.
What other thinks of thee stay not to ask—
Rather than please the many, serve the few;
Knowing that life's most glorious real do to
In never quite too hard for thee to do.

JAN. 5, '99.

—R. G.

BEYAN is in favor of expansion—expansion of Bryanism.

A town without enterprise is likely to furnish excellent pasturage.

A politician is more dangerous to a community than a buzz-saw.

Deeds, and not words, Mayor Weaver, are the tests of a man's sincerity.

No city, Mayor Weaver, can thrive that refuses to help exploit the resources of its tributary territory.

HOMER, Mayor Weaver, are not to be encouraged by placing stumbling blocks in their way.

It is a disgrace to show his hand or his heels pretty soon Uncle Sam will force him to quit the game.

Some men are so opposed to expansion that they will not draw a deep breath for fear their lungs will expand.

There is something lacking in the news this week, just mention it and we will try to supply the deficiency.

Having taken the initiative, Henry Watterson needs not the referendum to be the whole bunch of nominating conventions.

No many plots are being hatched against the Spanish government these days that there is danger of the incubator being overworked.

Jumping from the reports the Mole St. Nicholas war correspondent seems to have transferred his base of operations to Hankow, China.

Devere's gold sword will be one weapon that will escape the fate of being beaten into a pruning hook when this cruel war is over.

Paradise had twenty-one fires during the month of December, breaking the record. The Paradise fire had attained its majority at its woe.

It is true that we stole the tune of "Yankee Doodle" from the Spaniards but we have made the unexcusable by giving them "Hail Columbia."

When Uncle Sam gets through with the insurgents at Ilo, those that survive will wish that their forefathers had been equal to their hindsight.

Broke his death sentence Brice was estimated to be worth \$20,000 but his will only disposes of \$600,000. This proves that it only takes six figures to make an American millionaire.

The recent illustrated edition of the Beaver Dam Gleaser was one of the handsomest papers of its kind that has ever been sent out from the office of a country paper. The half-tones were splendidly printed and the whole sheet reflected credit upon Editor Likens and the hustling town in which he lives. The paper will undoubtedly do Beaver Dam great good.

How to Cure the Grip.

One of the leading physicians of Louisville gives the following simple remedy and course of treatment for the grip, now epidemic almost all over the United States, especially the middle and northern states:

"Remain indoors. Eat light, easily digested food. Take plenty of physic if necessary to give copious action of the bowels. The simplest remedy for the average case is equal parts of salol and phenacetin, 24 grains each, every two hours until the aching ceases, then to be discontinued.

"The danger from grip lies in three directions," continued the doctor. "In middle aged people it tends to produce nervous prostration, and all undue exercise, like climbing steps or heavy labor, should be avoided. It is hard on the action of the heart, and is likely to prove suddenly fatal in older people who do not take particular care to avoid overexertion. On the young, the force of the disease is spent generally on the digestive system.

"The unusual number of bronchial and throat troubles in connection with cases of the grip are puzzling the doctors. These cases generally as after effects, like those which follow scarlet fever and diphtheria in children.

"The cause of so much grip lies in the fact that the grip bacillus has not yet been cornered by the profession. We know he is here, but can not tell his nature. It is undoubtedly of non-miasmatic influence, atmospheric in character. Grip is always prevalent during such spells of weather as we have at present, but seldom found in colder or warmer weather."

of ap to the church sentiment, without much substance to them. They just take a minister and put a uniform on him, with a silver cross on his shoulder, pay him \$200 a month and turn him loose on 1,300 men, without any of the imple ments of the spiritual warfare to fight with. When I get out I am going to suggest that they do away with the chaplains. I suppose that there may be a howl, but it is better to raise the issue and have the whole system revised. When we get down to Cuba I'll see if most of the men would rather go to a cook fight or a bull-fight than attend services. To tell the truth, I am beginning to think there is a heap of baldness about what the chaplains do accomplish outside of meeting the sentiment that calls for their presence with every body of troops. Supposing the chaplains that he did not mean to give out the impression that the system should be discontinued, but that Chaplain should be provided with a good set of accommodations for holding meetings, without which they could accomplish no good.

HONEST WORKERS.

The Farmer's Institute held at Irvington last week represented all that is best in the social and industrial life of Meigs and Breckenridge counties. It was attended by honest workers, by men and women who love work for work's sake. The spirit that animated them was a desire to attain the mastery of their industry. They are types of the people to whom the world is indebted for all the progress it has made. Ed Oglesby, one of the most enthusiastic attendants at the institute was in the News office Friday morning and in speaking of the institute, bewailed the fact that there were not more farmers present. He said that the great majority of the farmers were not taking advantage of the opportunities that were afforded them to increase their capacity for work and production. Mr. Oglesby believed that men who mislead their countrymen by saying their labor is not honest workers, though the error may be one of the head and not the heart. He is right in this matter. The man who goes to the top in whatever avocation he pursues will find it more profitable and will find less competition to contend with. This holds good with the farmers more than with others, because they are the chief corner-stone of all good government. Much of the careless and shiftless work done on farms results chiefly from bad judgment and laziness are prone to over estimate their strength and abilities and often over-occupy themselves. This leads to careless tillage and consequent loss of profits. It also causes farmers to lose confidence in themselves and their work becomes a drag along instead of a pleasure. The man who is honest with himself rarely over-estimates his capacity or abilities and he never neglects opportunities that will enhance his power for accomplishing tasks easier and better. He grasps every advantage that comes his way to promote his interests. It is a duty that farmers owe themselves and the world to put forth their best efforts to better their own condition. They represent the most intelligent and independent class of the nation of toilers. It is an incontrovertible fact that the world recognizes the dignity of labor more than heretofore and we will have more faithful and enthusiastic workers in the future and they will be appreciated. The farmer who is in love with his work is an honest worker. He attends to his duties faithfully and every other gathering that is calculated to promote his capacity for efforts that produce good results. He is the right man in the right place. No man ought to follow any business he does not love.

Gov. Bradley will make the opening address this evening (Monday) at the Terrestrial Clubhouse in the new building. Gov. Bradley is now in the city on a silver service for the battleship Kentucky. Gov. Bradley's appearance and address are most appropriate as his father's Christian name was also Bradley.

Mr. Wallace, a foremost scholar and a great thinker in England, died this evening (Monday) at the Terrestrial Clubhouse. It proves for his statement that the world is a whole historical period. He was a co-worker with Darwin in scientific research. We are so glad we are living!

Governor Ted Roosevelt in his first address to the New York state legislature shows that he is level headed. He says that the cause of the present trouble is the turning down salaries of certain officials, of forcing others to do more work, and altogether getting rid of others. Give us some more such individuals.

All women whose lives have been "pure and transparent as a clear running stream" have no doubts and fears of other women. Such women are always bold and incapable of petty jealousies or malice. Only narrow-minded women are unhappy and selfish, and strive to make others so, hoarily to fail.

"Little Journeys to the Homes of American Statesmen," (twelve stories) with thirty-eight illustrations, on paper, vellum, decorated paper, per copy, \$1.75, is charming sketches full of historic fact and modern comment. The book is especially adapted to the wants of every school-room. Bright, good natured, in a chatty style, Mr. Hubbard has captured the interest of his readers.

What New York and London men spent for fun and frolic and luxury in 1898 was certainly "a plenty." But it is all right if they could afford it. I am in for liberty all my life. It makes me think of the old saying, "A little bird in the hand is worth two in the bush." I am object to another living in luxury or spending for pleasure simply because he or she cannot afford it. If I lived in a novel I would be glad to know a worthy friend had a place.

Smith and Nixon have sent me catalogue and circular of the Roanoke Hotel at Macalester's Theatre Jan. 17, Tuesday evening. This great plan is to excel Sauer, Paderewski, and D'Albani in his dazzling, masterful execution. He is simply a "Titan." I am requested to make up a party and attend but the tickets come too high for music lovers here, \$1.00 to \$2.00; no high to hear such a performer.

How self-centered children are. All of them are under the impression that they are of vast importance and that they will even receive unusual attention from the world. I have a little child say, "Whom will I sit in?" I want say there are three people who hold me. I thought of some people's moral of discontent and wondered if they would have to be held by some great celestial presence. The Holy Family in the chapel of Schrems would suggest the idea of I have read correctly.

Catherine Moore in Sunday's Courier says she did not know President Andrew Johnson had ever been entertained in Louisville until coming from a scrapbook in which was a ticket good for 1861. I heard President Johnson's address in 1866. April 13, that night the banquet was held at the Louisville Hotel. He was the first and only President I had seen. I remember some with standing near me in the vast crowd said, "Wonder if he could use his tailcoat as a coat for the night?" He was never so much as his grand old man.

Bank clearings in 1898, according to Bradstreet's revised figures, amounted to \$400,000,734,541 in seventy-seven cities, a gain of 25 per cent. Reviewing the first week of the new year, Bradstreet's figures show that the total for the week ended January 3, 1898, was \$1,000,000,000, nearly 40 per cent. larger than the corresponding week of the year 1897. The total for the week ended January 3, 1898, was \$1,000,000,000, nearly 40 per cent. larger than the corresponding week of the year 1897. Current Topics.

BY MR. HATTIE GRINNELL.

Interest depends daily in the state capitol. Ex-Governor Brown is the rather "num." He was a good Governor, but he was a poor man.

The United States is a strange France, of course, will have second place in size at the Paris exposition. Russia will occupy the largest space.

Rudyard Kipling is coming to New York. He had better be denying the impression created by his early writings of his unfriendliness to America.

Great Britain and France are still irritated toward each other. Pity neither can decide what her rights might be. The time is ripe to have the matter understood.

Our possessions recently acquired are giving us some trouble. Anti-expansionists are croaking "Hide away," other possessions have done the same in other centuries, and for these same United States.

Anthony Hope knew what he was talking about when he said "Women need to have the instinct of monopoly, not to care for a share of affection." God implanted that instinct, unless their nature is perverted.

Our best time is somewhat injured, our exports may not be so large since Gen. Miles has testified about American canned meats. Germany is not sorry for it. It is all well. Government inspectors inspect our food and at the time of slaughtering.

Gov. John B. Castleman, of the First Cavalry Volunteers, receives the brevet rank of Brigadier General for meritorious service at Porto Rico. We will the Colonel served. It is a great honor to Mr. Mr. Warren proposed for him.

Gov. Bradley will make the opening address this evening (Monday) at the Terrestrial Clubhouse in the new building. Gov. Bradley is now in the city on a silver service for the battleship Kentucky. Gov. Bradley's appearance and address are most appropriate as his father's Christian name was also Bradley.

Keep Coughing

We know of nothing better to tear the lungs in a cough than Ayer's Pectoral. It is better than wet feet to cause bronchitis and pneumonia. Only keep using long enough and you will succeed in curing your cough, bringing on a slow fever and making everything exactly right for the germs of consumption to get well.

Ayer's Pectoral

cures coughs of every kind. An ordinary cough disappears in a few days. It is better than wet feet to cause bronchitis and pneumonia. Only keep using long enough and you will succeed in curing your cough, bringing on a slow fever and making everything exactly right for the germs of consumption to get well.

Dr. Ayer's Cherry Pectoral Plaster.

It will aid the action of the Cherry Pectoral. If you have any complaint what Ayer's Pectoral will cure. It is better than wet feet to cause bronchitis and pneumonia. Only keep using long enough and you will succeed in curing your cough, bringing on a slow fever and making everything exactly right for the germs of consumption to get well.

Over at Garfield lives a boy who is undoubtedly a genius. Though he is but a child in years he is already well known as a meteorologist and artist. His teacher, Mr. M. A. Payne, sends the following production from the pen of the boy named Garfield, Lawrence W. Whitworth, for publication in the News. It was read by him on the last day of school.

Every one knows and every American is proud of the fact, the United States ranks among the highest of civilized nations of the earth. In the year 1500, a few years after the discovery of this continent by Columbus, civilization in America had never begun. It was one vast wilderness inhabited only by savages and wild beasts, and had I lain in this condition for hundreds and even thousands of years, unknown to the people of the world.

The decade of 1600 marked only a comparatively slight advancement in the civilization of America. The cause of civilization being impressed by our sovereign. The true history of our remarkable career of educational progress begins with our independence secured by the war of the revolution from 1775 to 1781.

Since that time our advancement in art and sciences and our swift pace in the various fields of knowledge, the sciences of the nations of the world. The nineteenth century has been the most eventful epoch in our history, we have established ourselves upon the solid rock of science and have designated our motives to the world and when all the liberty oppressing and prejudiced powers of the earth shall see that our principles are the only sound ones upon which a nation can be established and by the adoption of those principles emerge from the pall of darkness which has been hanging over them for ages, who will say that we have not been instrumental in elevating the mind of the human race? We do not mean to say that our only educational progress in the world and the others all under a cloud, but we are speaking of those of which

PRESENT INDICATIONS.

Over at Garfield lives a boy who is undoubtedly a genius. Though he is but a child in years he is already well known as a meteorologist and artist. His teacher, Mr. M. A. Payne, sends the following production from the pen of the boy named Garfield, Lawrence W. Whitworth, for publication in the News. It was read by him on the last day of school.

Every one knows and every American is proud of the fact, the United States ranks among the highest of civilized nations of the earth. In the year 1500, a few years after the discovery of this continent by Columbus, civilization in America had never begun. It was one vast wilderness inhabited only by savages and wild beasts, and had I lain in this condition for hundreds and even thousands of years, unknown to the people of the world.

The decade of 1600 marked only a comparatively slight advancement in the civilization of America. The cause of civilization being impressed by our sovereign. The true history of our remarkable career of educational progress begins with our independence secured by the war of the revolution from 1775 to 1781.

Since that time our advancement in art and sciences and our swift pace in the various fields of knowledge, the sciences of the nations of the world. The nineteenth century has been the most eventful epoch in our history, we have established ourselves upon the solid rock of science and have designated our motives to the world and when all the liberty oppressing and prejudiced powers of the earth shall see that our principles are the only sound ones upon which a nation can be established and by the adoption of those principles emerge from the pall of darkness which has been hanging over them for ages, who will say that we have not been instrumental in elevating the mind of the human race? We do not mean to say that our only educational progress in the world and the others all under a cloud, but we are speaking of those of which

There is a place of honor and profit for every one who is qualified. The men and women who are constantly coming to the front in the various walks of life, have qualified themselves in the same manner in which you must qualify yourself. They have been to the schools and colleges and have made good use of their valuable time. Personally speaking we regret that our school system is impressed with the belief that every scholar in the school will go home much wiser, before the school began. We should not leave off our studies now that school is out, remember the maxim that practice makes perfect, study with a good will and make yourself interested in your books, gather information from all available sources and thus you will acquire an education. Hoping that it will be our good fortune to attend school this term we must take leave of each other.

Our teacher we bid adieu hoping that the future will be as brilliant for him as the past has been. We have not time to bid adieu to all the others, but we are speaking of those of which

ANNOUNCEMENTS OF BRECKENRIDGE NORMAL COLLEGE.

HARDINSBURG, KY.

A Merry Christmas. GREETING. A Happy New Year. Progress in Education.

BUILDING—Four rooms, two halls, well lighted and heated, comfortable chairs, good blackboards. INSTRUCTORS—Instrumental and vocal music, Miss Kerkride; preparatory course, Miss Fannie Hunt; scientific course, J. H. R. Logan; teachers course, J. H. R. Logan. The five able directors, who are interested in the institution, live here, and are ever ready to give advice or assistance. The county LIBRARY—In addition to the College library you have access to the county library in the county superintendent's office. CERTIFICATES—A certificate of promotion will be given to anyone completing who completes their course. Our patrons receive satisfactory grades last year. Terms of our last year pupils now hold State certificates. DIPLOMAS—Diplomas will be given them complete the second year scientific course. Teachers who wish to prepare for State diplomas can do so here.

EXAMINATIONS—Frequent written examinations are held in every course, and especially in the teachers' in order that they may put up good papers on the terms—Eight dollars per term in ten weeks. "The laborer worthy of his hire" When you get just what you want you are willing to pay for it. When you engage in business or in teaching you want your salary commensurate with your ability. WITH THE TEACHER—Any month of the term, any week of the month, any day of the week. Come now! Preparation is the thief of time. The B. N. College has a host of friends in this and adjoining counties who are pleased to know that the Breckenridge Normal College has been taken for thoroughness in any course that may be chosen in this section of the State, and for greatest Educational College in this section of the State.

Wretched.
Could Not Eat or Sleep.

L. R. TERRIGO.
"Stockton, N. Y., June 28, 1894.
Dear Sir—About 3 years ago I became bilious, slow, dyspeptic and my system was generally run down. Lost appetite and flesh. Could not eat or sleep well, and had palpitation of the heart—in fact I was so wretched and unwell that on several occasions my friends thought I would not live till morning.
Two bottles of your Blood and Liver Remedy and Nerve Tonic produced a complete cure."
B. A. WITT, DRUGGIST, Hardinsburg, Kentucky.

FARM AND STOCK.

O the 1,200 mules sent to Cuba only 25 have died.

The U. S. has 200,000 pounds of tobacco a year or 65 ounces per capita. G. B. Johnson sold to B. Anderson 15 head of long yearling cattle for \$30 per head.—Georgetown Times.

G. J. White & Son sold to T. Rice twenty-five 105-lb. feeders at 4 cents.—Richmond Register.

Copier & Davis, of Nicholasville, have bought in Central Kentucky 10,000 barrels of corn at from \$1.25 to \$1.50 delivered. The corn will probably be shipped to Newport News for exportation.

The earlier broilers are on the market, the higher price they command. The incubator is an established institution of the farm, and it is one to be operated this, it is almost time to be dusting it up and putting oil in the lamp.

Not a half a dozen crops of tobacco have been sold in Robertson county yet. The buyers are not offering over five cents per pound and the farmers want more. The American's book shows Robertson county's yield this year to be over 2,000,000 pounds.

G. G. and J. O. Hamilton, of "Edgewood" farm, in Bath county, are the largest tobacco growers in Kentucky. Assisted by 100 tenants, they cultivated 400 acres of the "weed," and produced an average of 1,600 pounds of tobacco to the acre, making in the aggregate 600 hogheads.

The court of appeals has decided that "A fence built as the dividing line by parties owning adjoining tracts of land, and so maintained by them for forty years or more, must be regarded in law as an established right, notwithstanding it is at once time to be dusting it up and putting oil in the lamp."

Messrs. C. W. Porter and Chas. B. Smith made a big sale of cattle to J. W. Bales, of Richmond, Ky., yesterday afternoon, says the Park City Times of December 22. They sold 129 head, that averaged 1,400 pounds. For this number of cattle they received a check for \$5,250. These cattle were shipped direct to New York City and will be selling from there to Liverpool at once. This is one of the largest and nicest lots of cattle that was ever shipped from this country to England.

The Light Brahmas are an excellent fowl to breed, where one is wanted which will not force all over the place, scratch everything inside out and manufacture holes in fences. It never dies, and a few feeders will keep it within definite bounds. In feeding the large Asiatic strain, particular care must be given to cast their seed from plenty of straw or litter in order to make them exercise in feeding. In confinement, their tendency is to be too sluggish.

Apple growers throughout the Ohio valley are jubilant over the prospects for an immense apple crop next season. They say that the early cold snap in November and December prevented the sap from rising in the trees, which in cold weather during the latter part of the winter or early spring freezes and kills the buds. They say that in the present condition of the trees no amount of cold weather can effect such a season's crop of fruit, and a large yield is assured. Apple buyers are already in the field buying the next season's crop.

We have sent abroad approximately 12,000,000 bushels of wheat the past year, and the chief feature of the reawakening market which characterized the approach of the New Year were purchases for the seaboard and export. The old world has developed a voracious appetite for maize. In corn the record is astounding. Our exports will reach about 30,000,000 bushels. The record this week is ahead of the corresponding seven days last year and the steadily rising price does not seem to stem the flow to foreign countries. The price has advanced about two and three-eighths cents on the bushel since the 1st of January, and the tendency is still upward.—Breeder's Gazette.

The Courier-Journal's annual review of the last tobacco market appears in Sunday's issue. It shows that the crop on account of the half crop of 1897, to the smallest figures since 1888. Prices are much lower than last year, but the values of the low grades have been well maintained, so that the returns are larger than might have been expected, and the average per hoghead is ahead of the 1897 record. The new crop, both of

Barley and dark, is large, but is not a record breaker. The barley crop has been badly damaged, but the dark is the finest grown in fifteen years and commands good prices. The market promises to be better after the holidays.

Nowadays the advice "breed only to good stallions" is easier to give than to follow. Good stallions of various types are not found in every town or even in every county, in fact they are scarce. Last week the writer heard two farmers inquiring for a good coach stallion, and one of them was about to ship a mare 75 miles to be bred because he could not find what he wanted closer home. This state of affairs will prevail again next spring, and many mares will be bred to inferior stallions, simply because of the trouble and expense of getting a real good one. There is room for many more good, useful stallions in this country right now. They should be in the place occupied by the grade, the mongrel, the unsound and the undesirable.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, to save your life, life and your eyes, take No-To-Bac, the wonder-worker, that makes weak men strong. Buy No-To-Bac of your druggist, or write to Dr. J. C. Bennett, 100 West Broadway, New York City.

ANNALS OF THE COUNTRY AND TOWN.

"Com," said the fond mother to her little boy, "leave your play now; let me wash and comb you nicely, for papa will soon be home."
"Mamma," said the little boy fretfully, "I wish my hair was like Dr. Simons', he don't have to comb it."

In a joint journey to Indiana, a few weeks since, the Annals met Col. Roberts, of Washington. The latter served under Morgan during the civil war, and was an intimate friend of the immortal Col. Jeff. Stettin, of Harpersville.

"Jeff Stettin," said Col. Roberts, "was a great favorite of Morgan's." The chief-tain once placed Jeff in charge of a valuable team of mules and sent him to guard them as he would the apple of his eye. One day Morgan told his orderly to have the mules hitched up. The orderly looked high and low for the animals but could not find them and so reported to his commander.

"In a rage Morgan sent Jeff Stettin, and when the latter appeared before him he thundered:

"Jeff, where are those mules?"
"Lost them, General," replied Jeff.
"Lost them?" angrily exclaimed Morgan. "How in—how did you lose them?"
"On a pair of jacks," answered the imperturbable Jeff.

Morgan gazed at him wrathfully for a moment or two, and then, unable to repress a smile, said, "It was a d—d good haul to lose on."

He was standing in the yard at his home near Irvington, last fall, his mamma watching him from the porch. A bright butterfly flew low down. Eddie ran to catch it; just as he got near it the butterfly flew over the fence. Eddie turned and saw his mamma laughing at his disappointment. Quickly picking up a small feather of the ground, he said:

"I could not catch him, but I pulled a feather out of his tail!"

Councilman Bob Pierce has a promising three-year-old, named Sammie, Freddie, who has a reputation for giving expression to his feelings in a very original manner.

The other day he ate too much cake and Christmas "goodies," and running to his father, he said:

"Papa, give me a pill. I've got a headache in my tummy."

"I wish I was twins," said a little Hardinsburg boy to his mother.

"Why?" asked him.

"I would send one half of me to school, and go skating with this half."

Emil Nolte is a great wag.

He perpetrated all his jokes on John Phelps.

"John," said he, the other day, "what is the cause of daybreak?"

"Give it up," answered John.

"No, no, no," said Emil, "I do doled the billiard ball thrown at him by the tobaccoist."

Several loungers at Short & Haynes' drug store were discussing the perpetual motion theory the other day, and one said it was impractical.

"Why, it's easy," said George Short, "and I can prove it by poetry."

"Go on," said Henry Stader, "prove it or quit your bluffering."

"Well," said George, "The clock ticks the year,
The man eats the cake,
The words eat the words,
And there's your perpetual motion."

A well-known merchant in this city was talking about the habits of some people we see every day. Pointing to a man who was passing, he said:

"There's a fellow who is so lazy that he's glad he's getting half-headed because it will save him the job of combing his hair."

DeWitt's Witch Hazel Salve
Cures Piles, Scalds, Burns.

"A baby," says Israel Zungwili, "is a joy to his mother, an heir to his father, a charm to his friends, a nuisance to his neighbors, a new physician, a new customer to the shopkeeper, and a nuisance to the neighbors."

NEWS OF THE WEEK.

Snailpots has broken out among the Indiana troops at Havana.

Calvin S. Brice, late Senator from Ohio, left a fortune of \$7,000,000.

A new electric trust has been formed. It starts with \$25,000,000 capital.

Representative White, of North Carolina, is the only negro in congress.

An explosion of cartridges killed three persons at Matanzas, Cuba, Monday.

Judge Hobson, in the Court of Appeals, has upheld the habitual criminal law.

Five hundred Derivatives were killed in a battle by Anglo-Egyptian troops, recently.

Lord Salisbury has promised England's co-operation with Russia in the general disarmament plan.

Colonel W. J. Bryan, in a speech at Cincinnati, Friday night, said silver will be the issue in 1900.

Ten Spanish priests, who escaped from the insurgents in the Philippines, landed in San Francisco, Friday.

Major General Lullow has deprived Spaniards and Cubans of 40,000 rifles they had in private possession.

Richard Croker, the New York politician, says the silver issue is dead. He declares in favor of expansion.

Middleborough Confederate Veterans adopted resolutions against granting pensions to ex-confederate veterans.

The steamers Rose Shire and the Lexington sailed for England, Monday. Their losses are over \$1,000,000.

The cold weather has been hard onyster farmers on Puget Sound, Washington. Their losses are over \$1,000,000.

Lexington saloon men have inaugurated a boycott against business men who have tried to stop Sunday liquor selling.

Governor Mount, of Indiana, urges that counties be made liable for damages for lynchings committed within their borders.

A big boiler burst at Hewitt's ship-building yard, near London, England, Thursday, and eight persons were killed.

Russell Sage fears that property will make the people of the country extravagant and waste the country to be conservative. For it will strengthen the liver to bind down circulation the bilious system. Price 50 cents.—A. R. Fisher.

It is now charged that Batchelor Weyler bought the dynamite to blow up the "Mains," and that the deed was done by Zaccarias Stevens.

The fastest trip ever made across the continent was over last week by a mail train that made the journey in 97 hours and 57 minutes.

Twenty-three members of the Fourth Ohio volunteer were badly hurt at day camp, Ohio, Thursday night by their bullets falling on them.

General Wheeler and Col. Colman, who also have seats in congress, will be deprived of their civil offices by the house judiciary committee.

Charles Pickering, a young man who resides at Keuburg, Logan county, was shot from behind and killed by an unknown assassin, Thursday.

Italian miners, sent from Chicago to take the place of striking miners at Panama, Ill., drew the color line and refused to work with negroes.

The grip is causing so many deaths at Pittsburgh, Pa., that the undertakers are overworked and livermen find it difficult to provide vehicles for funerals.

The Standard Oil Trust which is on trial before the Supreme Court for violation at the anti-trust laws, has defied the court and refused to produce its books.

Governor Pingree, of Michigan, in his personal message gave McKinley a hot road for his friendship with monopolies. He says the trusts are enslaving America.

Blood stains were found in an apartment of the Governor's palace at Cienfuegos, Cuba. It is thought it was a torture room where political prisoners were put to death.

Mayor Weaver and City Warren, with other city and court officials, will be sued for damages, aggregating \$1,000,000, by victims of the recent pool-room raids, at Louisville.

Amos P. Goff, a wealthy 50-year-old farmer who lives near Frankfort, has been sued for \$1,000 by his daughter-in-law, Zora Spurgeon. She claims he took a lot of kisses without her consent.

The government is having a golden sword made which it will present to Admiral Dewey as a testimonial of the nation to his victorious hero of Manila Bay. It will be made of 22 karat gold.

How to Prevent Pneumonia.

We are perhaps aware that pneumonia always results from a cold or from an attack of the grippe. During the epidemic of it of a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or a grippe. Every bottle warranted. For sale by A. R. Fisher, Cloverport; R. A. Shellen, Stephentown.

YELLOW LAKE.

Uncle Frank Rhodes is very much indisposed this week.

Fred McDonald, of Henderson, is spending a few days with friends and relatives here.

Mr. Matt Jarber will still continue the business at the old stand since the death of his brother, Mr. Chas. Jarber.

Miss Maggie Wheatley and Mr. Jim Mattingly, of Kirk, spent a few days with Miss Maggie Rhodes last week.

Charlie Sheeran was down last Monday extending his cordial invitations to his friends here to attend the hop at his home Monday night at Kirk.

Misses Minnie and Gus Rhodes, Messrs. Joe and Dolph Rhodes returned last Monday from a very pleasant visit at their uncle's, Mr. Tom Rhodes, of Gray-corn. A delightful hop was given in their honor. The girls say the Gray-son boys are very nice, but they think a whole heap of the Breckenridge boys yet.

It is a sheet that fell last night presents a beautiful winter scene this morning. How solemnly grand is winter's beauty, but alas, how dreary to the student who must perform the same routine of household duties each day and listen to the merciless wind whaling without while the "weary clock goes on."

It is with tender sympathy to the bereaved family and kind remembrance of a former acquaintance that I commiserate the death of Mr. Charis Jarber, which occurred at his home at McDaniel on 2, 1894, after a lingering illness of consumption. Mr. Jarber was well known throughout the county being in mercantile business here for a number of years of the firm Jarber Bros., and was well liked as a merchant and citizen. His health has been failing for several years, but as he possessed a remarkable sense of ambition and industry he kept his place at the store up until a few months past when his strength gave away and he had to yield to his victor and meekly await by his bedside the summons that he knew would soon call him to his eternal dwelling. He took care to arrange all his business satisfactorily, providing for his family when he should be no more; then seemed willing to submit to the will of God. He leaves a wife and three bright little children, who will sadly miss a husband's love and father's protection, but, Oh, above, who dwell at his eternal dwelling, will forget them in their trying hours of bereavement. The funeral was conducted by Bro. Waggoner and took place from the Baptist church, his remains were gently placed in Pleasant Hill cemetery there to await the resurrection morn.

THE SANITARIUM, EVANSVILLE, was opened January, 1894. It is a beautiful building, well suited for the purpose, and no trouble or expense was spared to make it complete. No institution in the country is more thoroughly equipped for care of surgical diseases and diseases of women. The two papers each week give the complete list of patients in attendance. The institution was erected by Drs. A. M. Owen and Edwin Walker, Dr. Owen having died, it will be conducted by Dr. Walker, assisted by Dr. John R. Owen.

The same high standard of the past will be fully maintained.

All correspondence should be addressed to Dr. Edwin Walker.

The Weekly St. Louis Globe-Democrat.

Price One Dollar per Year \$1.00

Issued in Semi-Weekly Sections.

Right Pages Every Tuesday and Friday. Sixteen Pages in Every Week.

As a Newspaper. The WEEKLY GLOBE-DEMOCRAT, issued in Semi-Weekly Sections, is almost equal to a daily at the price of a weekly. The two papers each week give the complete news of the week from all parts of the world, no selected and arranged to preserve the thread of events from issue to issue. The preparation of THE NEWS in this form involves an immense amount of labor and expense, and comprises the most complete and comprehensive NEWS SERVICE of any local publication in the United States, if not in the world.

As a Home Journal. The WEEKLY GLOBE-DEMOCRAT is equally as prominent. It is mostly clean, and may be read with the best of peace of mind. It contains the very cream of current literature and the best pictorial illustrations. Its departments devoted to "The Home," "For Women," "Agricultural News," "The Farm, Garden and Dairy," are each of the highest grade, and its MARKET REPORTS are correct and complete in every detail.

In a Word THE WEEKLY GLOBE-DEMOCRAT is a complete newspaper, prepared and printed for intelligent and thoughtful people. We have confidence in its ability to speak for itself, and will cheerfully mail SAMPLE COPY free of charge, upon receipt of request.

MONTHLY SUFFERING.

McKENRY'S Wine of Cardui

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

For advice, in cases requiring special directions, address, give name and address to "The Ladies' Friend," a Department of The Chattanooga Medicine Co., Chattanooga, Tenn.

Dr. J. C. Bennett, of Louisville, Tenn., says: "I have tried many remedies with terrible pain in my head and back, but I have found no relief until I used McKenry's Wine of Cardui."
